

# Budget Campervan Rental

## 1999-2001 Toyota Hiace Hi-top Campervan 2-3 Berth

\* Conditions Apply -  
Prices may vary in  
Peak Seasons.

Backpacker, budget, cheap, thrifty, economic, whatever you call it, you don't miss out on anything in these wonderfully fitted Camper vans for hire (or rent) from Travellers Auto Barn whilst you are in Australia. These campers are definitely not wicked!

What better way is there to see our magnificent countryside than behind the wheel of one of our Toyota HiAce Campervans for rent. After a day's driving you can pull up to your campsite, cook dinner and then sit back and relax, enjoying your meal whilst taking in one of Australia's wicked sunsets. At the end of the day you retire to a comfortable double bed in the privacy of your own hotel room - on wheels!

These campervans are fully equipped for travelling and living comfortably in the outback, the city, or just down at the beach. With plenty of storage for your personal items, all you need to throw in is your sense of adventure.

### Specifications :

- 2.4 litre, unleaded petrol, 4 cylinder, engine
- 5 speed manual transmission

- Fixed hi-top roof
- Spacious Single Bed in Hi-Top
- Storage
- Sink with water pump
- 2 burner gas cooker
- Fire extinguisher
- 2 way fridge
- Dual battery system

Our Campervans are the best budget rental deal that you could get. Also, consider this, when you buy bus tickets and accommodation per person, and throw in the extra transport you may need when the bus only drops you in the centre of town, it may actually be cheaper to rent a campervan.

For Example:

A couple travels from Perth to Darwin for 8 weeks:

**The BUS WAY**

2 x Bus Tickets \$1857  
 Private Room @ \$50 x 56 nights \$2800  
 Sightseeing Transport \$600

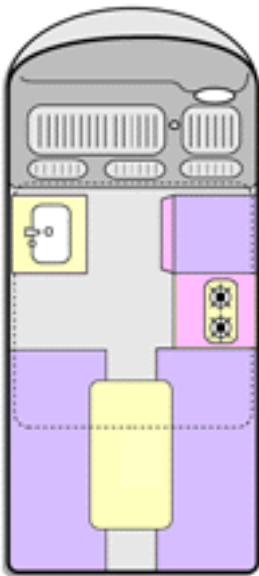

**Total \$4690 or \$2345p/p**

**Your OWN WAY**

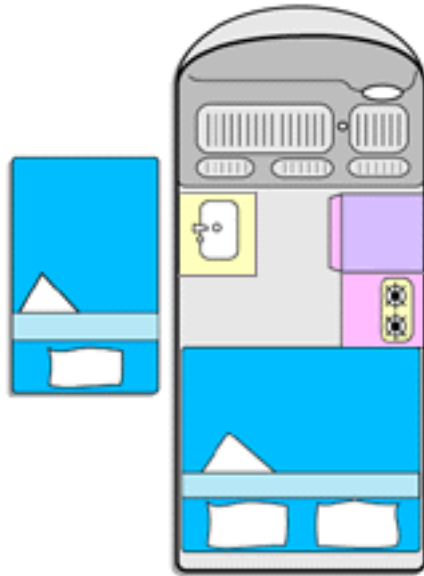

56 Days Camper Rental @ \$70pd \$3920  
 Private Room \$0  
 Sightseeing Transport \$0  
 Petrol \$500

**Total \$4420 or \$2210p/p**

So whilst it may feel more expensive when you are paying for it all up front, in the long run, it can be cheaper than alternate transport methods. Seems obvious now doesn't it? Or do you need to be told about the benefits of freedom, creating your own adventure, not worrying about time tables and schedules, stopping when you feel like stopping, staying when you feel like staying, complete convenience, having total flexibility, sharing the adventure with good friends old and new, listening to your fave discs.....!!!!!!
