

### **Travellers Auto Barn welcomes new campervans to its fleet**

Sydney, Australia – July 2010 has been a busy month at Australia's number one budget [camper rental](#) company, Travellers Auto Barn, as they welcome the latest addition to their rapidly growing fleet: "Deluxe Campervans". These [campervans](#) represent a whole new class of vehicle Travellers Auto Barn are making available to the backpacking traveller and will offer a new level of comfort, quality and style while still being keenly priced to compete in Australia's increasingly crowded youth/backpacker market.

The new "[Deluxe campervans](#)" - a three berth model which Travellers Auto Barn will run alongside its existing fleet of Hitop campers - will offer travellers looking for that little bit extra in comfort and modern design an excellent alternative to the more mainstream rental companies.

Travellers Auto Barns Managing Director, Peter Burke was enthusiastic when asked about the delivery of the first vehicles through his Williams St branch.

"These new vehicles make an awesome addition to our fleet and if customer reactions are anything to go by they are going to prove to be incredibly popular. So much so we're looking at a second batch of campers to add to the 35 we have already received"

Mr Burke also went on to explain their place in Travellers Auto Barns existing fleet as well as some of the decision making behind the addition of the "Deluxe Campervans".

"The "Deluxe Campervan" will not only swell our fleet numbers giving us the means to be able to fulfil more of the demand over peak periods but most importantly for us the constant updating of our fleet with newer, more modern vehicles means we can offer a superior quality, better appointed and more practical product at a price equal to or less than many of the other budget or backpacker operators out there."

"Keeping the vehicle fleet fresh, high quality and excellent value should always be our main priority. If we continue to do this the rest takes care of itself"

Travellers Auto Barn is a 'one stop shop' for backpacker and budget traveller planning their own trip around Australia. Travellers Auto Barn offers a range of campervans, cars & stationwagons for hire as well as for sale (including 4WDs).
